Skills and Interests:

Skills:
- Computer skills: microsoft excel, word, ppt, etc.
- Personable, enthusiastic, outgoing, hardworking,

Summary:

Helping out and making an impact in the community has always been a passion of mine. Incorporating this into my education and future graduate work is something that I am extremely looking forward to, particularly in the field of epidemiology and global health. The problem-solving skills and communication skills needed in that field are two things I feel like I am confident in but will continue to work hard to improve.
