EXPERIENCE

Head Server - *Miyabi Shabu and Grill (Irvine, CA)*   **September 2021 - April 2022, January 2024 - Present**
- Trained new servers on guest service expectations, restaurant protocol, and safety procedures
- Maintained an 8 table section with friendly, fast, and attentive service to ensure satisfaction
- Provided quality menu recommendations curated to the guests' preferences and dietary restrictions

Full Stack Web Developer - *Freelance (Irvine, CA)*   **March 2020 - Present**
- Developed full stack web applications for clients such as Mokkoji Shabu Shabu and Yun Law Group
- Prototyped designs on Adobe XD and used HTML, CSS, and Bootstrap to construct the applications
- Created PHP applications for contact forms within the sites to improve customer service dynamics

Server - *Steamy Piggy (San Diego, CA)*   **September 2022 - December 2023**
- Balanced a multitude of duties, such as serving, hosting, and bussing while ensuring quality service
- Maintained a clean and efficient establishment by taking initiative to implement improvements
- Ensured customer satisfaction by providing kind, prompt services and personalized interactions

Software Engineer Intern - *Brydan Solutions (Las Vegas, NV)*   **May 2021 - June 2022**
- Tested and patched possible SQL injection vulnerabilities within cloud data storage for businesses
- Translated PHP applications to ASP.net technologies to reduce the threat of security breaches
- Converted dynamic queries to parameterized queries to ensure injections fail to affect execution

Barista - *OneZo Boba (Irvine, CA)*   **January 2021 - August 2021**
- Worked diligently in a fast paced work environment while maintaining cleanliness and organization
- Used in depth menu knowledge to offer guests with drink recommendations based on their cravings
- Consistently communicated with coworkers to maintain teamwork and overall efficiency

PROJECTS

Bandwidth Monitor
- Developed a live updating Command Line tool with Python to track any downloads or uploads made on a device and directly email the user every week with a summary of their Internet usage
- Currently developing the Bandwidth Monitor to expand to mobile platforms
