EXPERIENCE

Uber Eats — Delivery Driver

July 2024 - PRESENT

Focused on delivering food quickly and accurately, making sure customers were always satisfied with their orders. Handled digital payments, ensuring everything was accounted for at the end of each shift. I juggled multiple deliveries simultaneously, planning the best routes to save time and get food to customers while it was still hot. If any issues came up, like wrong orders or delays, I worked directly with customers to sort them out and keep them happy. Always pay close attention to details to make sure every delivery is right and on time.
