**Work Experience**

**PBR @ The Battery** February 2021 - present

- Bartender
- Hold the All time Sales record for the company. \$15,395
- World Series Bartender
- Private Event Bartender

This environment is what I'm used to. Fast fast, high volume, game day crowds, I've always had a deep understanding of mixed cocktails and here you get a mix of it. I thrived right away as my managers have told me. Handling crowds of thousands of people eager to have a great time pregame and post-game. I have managed to handle the crowds and create an experience for each and every guest. Guests remember me by name at PBR. It's an exciting environment but challenging. Still trying to be a cute and great PBR bartender, I thrive on challenging myself here with creative cocktails and shots for some enthusiastic baseball lovers. I have learned how to move smarter and work harder at the same time. It was tough mentally at first but very quickly with my knowledge of beer and different types of alcohol.

**Teranga City** December 2022 - June 2023

- Bartender
- Created drink menu
- Drinks feature on multiple platforms
- Highest sales among bartenders \$6,592
- Service bartender

Teranga City is a newer lounge that I saw potential in right away and quickly became one of their first new hires and immediately took charge of the bar. There I have worked hand & hand with the owner, management team, and liquor companies to put together a curated list of drinks that I felt like would compliment the clientele. In my short time I became lead service bartender, a trainer, and during some days MOD. I work very hard to show my skill set and hard work ethic to help not only myself but the staff around. Primarily my main job was to ensure guests have proper service and had a memorable time at my bar. Every shift I challenge myself to have better sales than my last and with that work ethic I have maintained the sales record for bartenders.

**Atlantis Restaurant & Lounge/ Lily White** June 2020 - January 2021

- Head Bartender
- Trainer

I have become fluent in mixing and serving alcoholic drinks while maintaining a fun and enjoyable environment at my bar. I have mastered multitasking and being able to understand the flow of the bar when we switch from a restaurant to a club like environment. I bring high energy and consistent clientele to the bar. Within my first month here I became the head bartender and trainer because of showing leadership and high sales. I brought my previous experience of bottle service to help influence the bar and it has helped raise sales overall.

**B51 - Buckhead Atlanta** - July 2019 - November 2019

- Bartender/Cocktail Waitress

Cocktail Waitress with bottle girl and bartending experience. I deal with a very chaotic club like environment and maintain all my tables while entertaining guests. Finding the calm in the sports bar crowd and I make sure I build relationships with each and every person. Being trained on different alcohols and beers has widened my knowledge and helped me when it comes to serving guests of all kinds.

**Hooters Downtown Atlanta** - July 2018 - October 2019

- Hooters Girl
- Bartender
- Super Bowl Bartender
- Convention Bartender

Attending multiple high demanding tables during fast pace, high energy level hours such as during games, sporting events or even conventions. I was able to deal with big crowds and became informed about all different types of alcohol such as local beers, domestic, IPAs, lagers, etc. Creating relationships with all of my tables is very important and I like for them to feel comfortable and enjoy their dining experience whether they are watching a game or just coming out. They remember my face and my service. Being an active team member with helping out where I can either help run food or drinks, or even checking on tables to make sure everyone was okay. Being a server holds many hats and that's what I love about it.
