Experience

The Kennedy 3210 WDallasSt, Houston TX 77019

Bartender | October 2024 - Present

I have been a bartender at The Kennedy in Houston since its opening, developing a strong ability to craft high-quality cocktails and manage fast-paced, high-volume service. My knowledge of specialty spirits, wines, and rare liqueurs allows me to create customized drinks based on client feedback, often earning guest praise for the quality of my drinks and attention to detail. In addition to bartending, I assist in training new staff, managing inventory, and handling opening and closing duties, ensuring smooth operations during both regular service and large-scale events. The role often involves handling fully booked nights and high-capacity events where speed, efficiency, and organization are essential to keeping service running smoothly. Being part of the team from the start required learning many aspects of the job independently, fully developing my ability to self-teach and adapt in a new environment.
